About Iron Embers

Iron Embers was built for fire lovers. Our customers and employees share a passion for community and the fires that bring us together.

Every fire pit is:

Proudly handcrafted in Guelph, Ontario

Each Iron Embers fire pit is welded solid and polished smooth by our team of expert fabricators - all at our shop in Guelph.

Backed by our 10-year guarantee

Founded in 2011, Iron Embers has been building Canada's most durable fire pit for over a decade. We know our materials and craftsmanship are solid!

Built from 1/4" thick steel for use all year

Thick steel and stainless mesh mean you can use your fire pit year-round. You can even upgrade your fire pit to fully stainless for ultimate durability!

IRON EMBERS

Your Fireside Experience

Made in Canada

The Octagonal Cottager

The Cottager is the original Iron Embers fire pit and comes loaded with features to enhance your fireside experience. The design work perfect for custom text and logo personalizations.

The Polygon Bowl

The Polygon is a sturdy, yet elegantly designed fire pit that can enhance any patio or backyard setting. Featuring 32 side faces, the shape is a unique aesthetic.

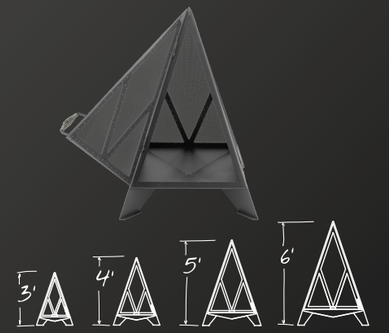

The Pyramid

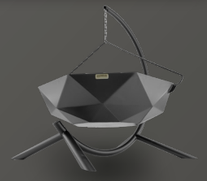

The Pyramid is the pinnacle of outdoor fireplace design. With its open sides, the Pyramid provides an outstanding view of your fire while safely containing the fire behind stainless steel mesh screen and hinged door.

The Hanging Pendant

The Hanging Pendant is a unique floating fire pit, featuring a faceted bowl supported by an eye-catching crescent frame. It's sure to be a conversation starter on your patio!

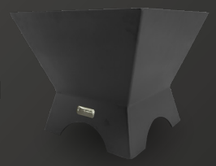

The Modern Cube

The sleek design of the Cube allows users to come in close with its raised bowl, tall sides, and relatively small footprint. The large side panels are perfect for detailed personalization cutouts.

The Chiminea

Stainless mesh encloses all four sides of the Chiminea, providing a clear view of the fire. The roof and chimney guide much of the smoke up and away from your seating area.
